

Crystal Reports for SynergySoft Level 2 (Advanced)

IN BRIEF

Delivery: Instructor Led

Duration: 1 day

Class size: 10 Students Max.

Inclusions: Certified instructor, comprehensive course manual, individual computer access and refreshments.

Prerequisites: In this course you will be working intensively with Crystal Reports. To successfully understand the content and complete the activities, learners must have a proficient knowledge of Windows conventions and basic database concepts, and have a solid understanding of all concepts taught in the Level 1 introductory course.

Course Overview

This one-day, instructor-led course is a customised demonstration showing SynergySoft users how to increase their report design skills and discover the reporting power of Crystal Reports.

Building on the activities covered in the Level 1 course, students will gain comprehensive skills and in-depth knowledge to plan and create reports that will help them analyse and interpret important information.

Audience

This course is designed for SynergySoft users who have successfully completed the Level 1 introductory course, and who want to further develop their basic report design skills using Crystal Reports.

Topics Covered

Concepts covered include:

- Conditional Formatting
- Drill Downs and Graphs
- Exporting Reports
- Advanced Section Formatting
- The Running Total Expert
- Parameter Fields
- Advanced Grouping
- Report Alerts
